

Computer & Internet Ethics

Computer and Internet Ethics

Dr. Ghaith Saker

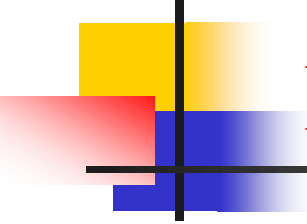

2026

YPU

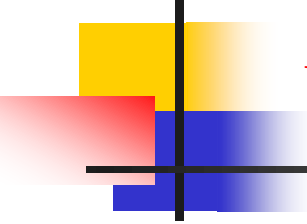

Lecture Outline

- Introduction to Digital Ethics
- Why Study Digital Ethics?
- Core Ethical Principles
- Ethical Analysis Model (5 Steps)
- Practical Ethical Analysis Scenario
- Digital Privacy: Concept & Challenges
- Intellectual Property: Concepts & Basics

Lecture Outline

- Health & Environmental & Societal Impacts
- Digital Footprint & Management
- Ten Commandments of Computer Ethics
- Shared Responsibilities
- Recommendations & Conclusion

What is Digital Ethics?

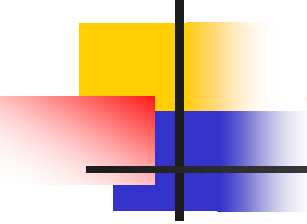

- **Definition:** Principles and standards governing human behavior in dealing with digital technologies
- **Key Areas:**
 - Ethical values in technology design and use
 - Balancing innovation with social impact
 - Responsibility towards individuals and society
- **Real Examples:** AI ethics, big data ethics

“الأخلاقيات الرقمية ليست مجرد قواعد استخدام، بل هي إطار أخلاقي يوجه المصمم والمستخدم معًا لتحقيق التوازن بين التقدم التكنولوجي وحماية القيم الإنسانية والمجتمعية”

Why Study Digital Ethics?

-  **Pervasive Presence:** Computers in almost every aspect of our lives
-  **Life-Critical Tasks:** Medical systems, aviation, infrastructure
-  **Lack of Regulation:** Compared to fields like medicine and aviation
-  **Ethical Necessity:** Ensure responsible technology use
- **Shocking Stat:** 63% of companies monitor employee email

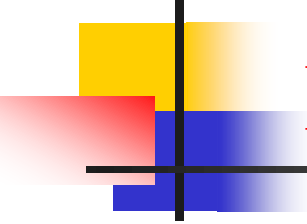

"الوعي الأخلاقي هو الضمان للتعامل المسؤول مع التكنولوجيا التي أصبحت جزءاً لا يتجزأ من حياتنا اليومية، خاصة في ظل غياب القوانين الكافية أحياناً."

Core Ethical Principles

-  **Public Benefit Principle:** "An act is ethical if all of society benefits"
-  **Human Dignity Principle:** "Treat people as ends, not means"
-  **Justice Principle:** "An act is ethical if it's fair to all parties"
-  **Transparency Principle:** Honesty and clarity in digital interactions

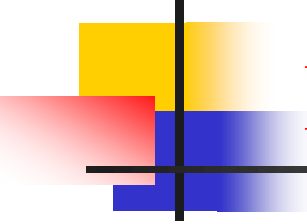

"تقوم الأخلاقيات الرقمية على أربعة مبادئ أساسية، يمكن اعتبارها بمثابة اختبار سريع لتقييم أي فعل أو قرار تقني"

Ethical Analysis Model (5 Steps)

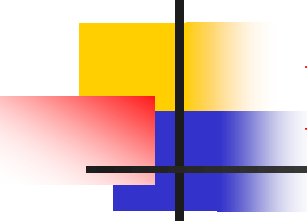

1. **Identify Facts:** What actually happened?
2. **Diagnose Conflict:** What values are conflicting?
3. **Identify Stakeholders:** Who is affected?
4. **Propose Options:** What actions are possible?
5. **Analyze Consequences:** What are the outcomes of each option?

"نموذج عملي وتدرجي لتحليل أي مشكلة أخلاقية يهدف إلى استبدال الأحكام العاطفية أو المتسارعة بتفكير منهجي ومدرّس"

Practical Application - Ethical Analysis Scenario

- **Scenario:** A free app collects user data and sells it to marketing companies
- **Analysis:**
 - **Facts:** Data collection without clear notification
 - **Conflict:** Profit vs. Privacy
 - **Stakeholders:** Users, Developers, Marketing companies
 - **Options:** Stop collection, Continue with disclosure, Continue without disclosure
 - **Consequences:** Legal, financial, reputational impacts

Digital Privacy - Concept

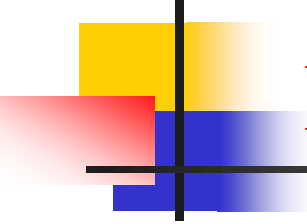

- Right to control personal information
- Protecting data from unauthorized access
- Controlling how data is collected and used
- Right to be forgotten

الخصوصية الرقمية

Privacy Challenges

-  Large Databases: Collecting information without consent
-  Digital Tracking: Cookies and spyware
-  Email Monitoring: By employers
-  Privacy Illusion: Each email leaves 3-4 copies!

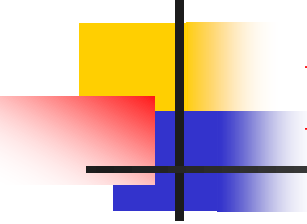

" التحديات التي تجعل حماية الخصوصية صعبة في العصر الرقمي: جمع البيانات دون علمك، تتبع تحركاتك على الإنترنت، مراقبتك في عملك، معلوماتك تُنسخ وتنتشر دون سيطرتك "

Practical Application - Privacy Violation Scenario

- **Unethical Behavior:** Employee accesses patient records out of curiosity
- **Violations:**
 - Data privacy violation
 - Exceeding authorization
 - Information security breach
- **Ethical Alternative:** Adhere to access permissions, report vulnerabilities

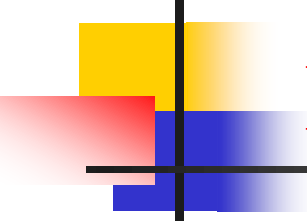

"موظف يطلع على سجلات مرضى بدافع الفضول"
"اختراق الخصوصية لا يحتاج بالضرورة إلى قرصنة محترفين"

Privacy Protection Solutions

- Clear privacy policies
- Data encryption
- Personal awareness of information sharing
- Limiting user permissions
- Using secure websites (HTTPS)

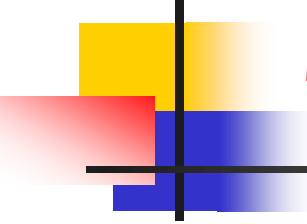

"حلول التحديات الأخلاقية الرقمية مسؤولية مشتركة: مؤسسات، أفراد، وتقنيات."

Intellectual Property - Concepts

- **Definition:** Legal protection rights for intellectual creations
- **Main Types:**
 - Copyright: Protection of creative works
 - Patents: Protection of inventions
 - Trademarks: Protection of logos and names
 - Trade Secrets: Confidential business information

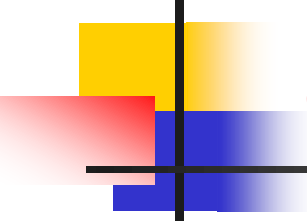

"تختلف أنواع الملكية الفكرية، فلكل نوع غرضه الخاص ومدة حمايته المختلفة."

Types of IP Protection

-  Public Domain: Free, unprotected, variable quality
-  Freeware: Free, protected, no modification allowed
-  Shareware: Trial version, payment required later
-  All Rights Reserved: Use according to agreement

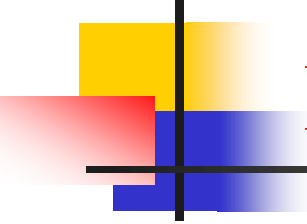

"تختلف أنواع تراخيص البرمجيات، ولكل منها شروط استخدام محددة يجب الالتزام به"

Common IP Violations

-  Software Piracy: Unlicensed copying
-  Plagiarism: Copying texts without attribution
-  Image Rights Violation: Using images without permission
-  Illegal Distribution: Movies, music, books

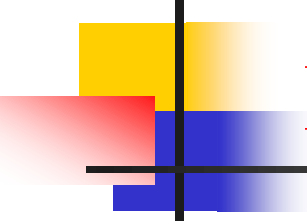

"أشكال شائعة من انتهاكات الملكية الفكرية في الفضاء الرقمي"

Practical Application - IP Violation Scenario

- **Unethical Behavior:** Student downloads e-book from illegal site and copies content without citation
- **Violations:**
 - Copyright infringement
 - Plagiarism
 - Illegal use
- **Ethical Alternative:** Purchase from legal sources, use proper citation

"التوفير المادي لا يبرر المخالفة الأخلاقية، فالتوثيق السليم هو جوهر النزاهة الأكاديمية"

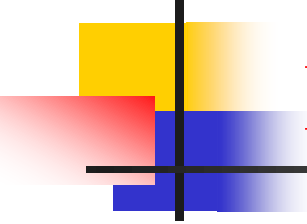

Protecting Intellectual Property

- Respect copyrights
- Use quotation and citation
- Buy original software
- Use legal free alternatives
- Learn about Creative Commons licenses

"كيف تصبح مستخدماً أخلاقياً للتكنولوجيا؟ خطوات بسيطة وعملية للجميع"

Health & Environmental Impacts

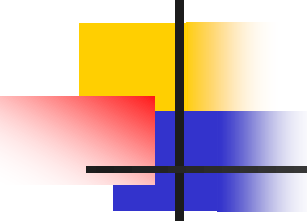

- **Health:**

-  Ergonomics: Correct sitting postures
-  Eye Protection: Rest from screens

- **Environment:**

-  Energy Conservation: Green devices
-  Recycling: Reduce e-waste

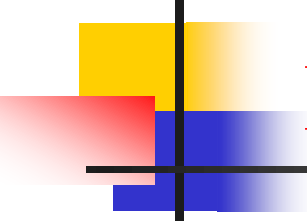

"التأثيرات الصحية والبيئية"

Social & Psychological Impacts

- **Positives:** Global communication, E-learning, Improved services
- **Negatives:**
 - Internet addiction: Neglect, health effects
 - Social isolation: Reduced direct interaction
 - Cyberbullying: Deep psychological effects

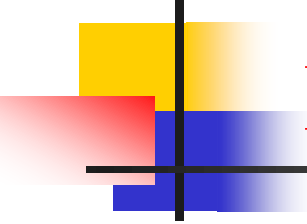

"التأثيرات الاجتماعية والنفسية"
"التكنولوجيا سلاح ذو حدين: حد الإيجابيات ، وحد السلبيات كالتمر والإدمان."

Digital Divide & Societal Impact

- **Gap in technology access between:**
 - Developed and developing nations
 - Urban and rural areas
 - Different social groups
- **Initiatives:** Infrastructure, training, affordable devices

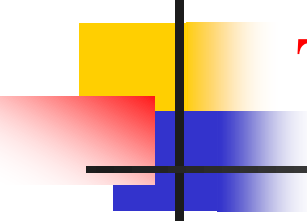

"الفجوة الرقمية هي مشكلة عدم المساواة في الوصول إلى التكنولوجيا والاستفادة منها"

Digital Footprint & Management

- **Trail left through digital activities**
- **Includes:** Social media posts, Search history, Data collected by websites
- **Management Tips:** Review privacy settings, Think before posting, Regular deletion

"البصمة الرقمية: السجل الدائم لنشاطك على الإنترنت، إدارتها بوعي مسؤوليتك"

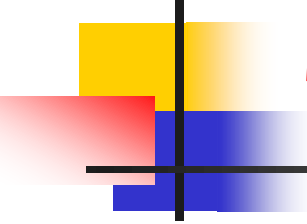

Ten Commandments of Computer Ethics

1. Do not use technology to harm others
2. Do not disrupt others' work
3. Do not snoop in others' data
4. Do not use a computer to steal
5. Do not spread false information

الوصايا العشر لأخلاقيات الحاسوب

"قواعد بسيطة وواضحة ترشد كل مستخدم حاسوب"

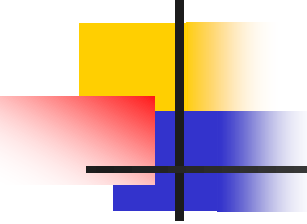

Ten Commandments of Computer Ethics

6. Do not use unlicensed software
7. Do not use resources without permission
8. Do not steal others' creative work
9. Think about the consequences of your programs
10. Use technology respectfully

الوصايا العشر لأخلاقيات الحاسوب

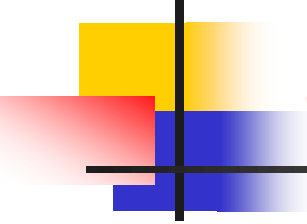

"قواعد بسيطة وواضحة ترشد كل مستخدم حاسوب"

Shared Responsibilities

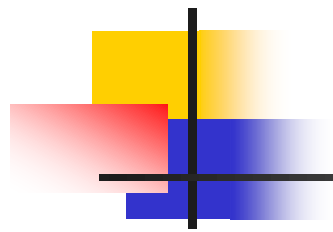

- **User:** Protect personal data, Respect property rights
- **Developer:** Design secure systems, Respect privacy
- **Organization:** Enforce ethical policies, Provide necessary training

"الأخلاقيات الرقمية ليست مسؤولية فرد واحد، بل منظومة متكاملة: المستخدم، المطور، والمؤسسة، لكل منهم دور حاسم في بناء بيئة رقمية أخلاقية."

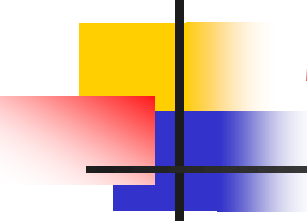

Conclusion

- Digital ethics is collective responsibility
- Balance innovation and protection
- Educate users on technology ethics
- Build responsible digital culture
- Prepare for future challenges

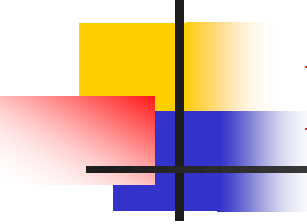

Review and Assessment

True/False Questions

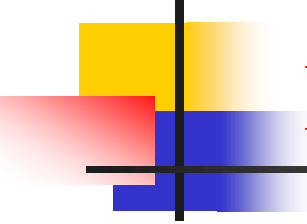

1. Using software without purchasing a license is legal as long as it's for personal use. **False**
2. Digital privacy only means preventing others from accessing your data. **False**
3. The "Public Benefit Principle" means an act is ethical if all of society benefits from it. **True**
4. Digital footprint refers only to social media posts. **False**
5. Reporting a security vulnerability found in the university system is ethical behavior. **True**

Multiple Choice Questions

- **Which of the following is considered a core "Ethical Thinking Principle"?**
 - a. The Speed Principle
 - **b. The Public Benefit Principle**
 - c. The Complexity Principle
 - d. The Cost Principle

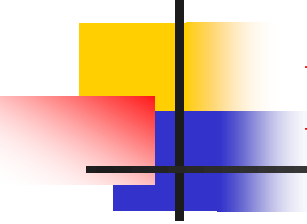

- **What is the first step in the 5-Step Ethical Analysis Model?**
 - a. Analyze Consequences
 - **c. Identify the Facts**
 - b. Identify Stakeholders
 - d. Diagnose the Conflict

Multiple Choice Questions

- Which of the following examples represents an intellectual property violation?
 - a. Buying a book from a legal store
 - **b. Copying paragraphs from a website without attribution**
 - c. Using free open-source software
 - d. Citing an academic article with proper documentation

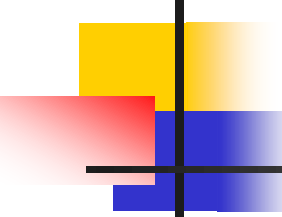

- Which of these actions helps protect digital privacy?
 - a. Using weak passwords
 - **c. Enabling Multi-Factor Authentication (MFA)**
 - b. Sharing passwords with friends
 - d. Using public Wi-Fi without VPN

Multiple Choice Questions

- **The "Digital Divide" is defined as:**
 - a. The difference in internet speed between homes and offices
 - **b. The gap in access to technology and digital skills among different groups**
 - c. The difference in active user numbers on social media platforms
 - d. The gap between different software versions

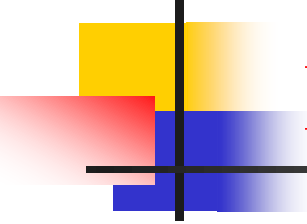

- **What is the term for the act of using someone else's work and giving them credit for it?**
 - a. Plagiarism
 - **b. Attribution**
 - c. Copyright infringement
 - d. Fair use

Multiple Choice Questions

- What is the term for the act of intentionally spreading computer viruses, malware, or other harmful software?
 - a. Ethical hacking
 - b. Responsible technology use
 - c. Cybersecurity
 - **d. Malicious software distribution**

- What is the term for the legal protection of inventions and discoveries?
 - a. Copyright
 - **b. Patent**
 - c. Trademark
 - d. Fair use

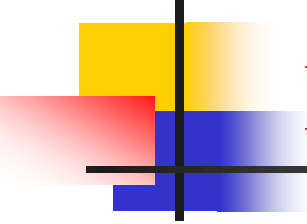

Multiple Choice Questions

➤ What is the term for the practice of gaining unauthorized access to computer systems and networks with malicious intent?

- a. Privacy invasion
- c. Digital literacy
- b. Hacking**
- d. Encryption

➤ Which of the following is an example of a privacy breach?

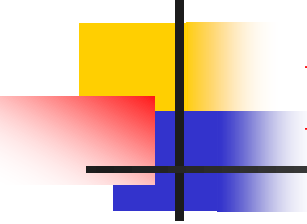

- a. Sharing vacation photos on social media
- c. Unauthorized access to personal medical records**
- b. Encrypting sensitive emails
- d. Deleting browser cookies

Multiple Choice Questions

- What should you do to respect copyright when using someone else's image in your presentation?
 - a. Remove the image's watermark
 - **b. Provide proper attribution to the image's creator**
 - c. Alter the image to make it unrecognizable
 - d. Use the image without permission

- Which of the following is an example of personal information that should be protected online?
 - a. Public social media posts
 - **b. Home address and phone number**
 - c. News articles
 - d. Weather forecasts

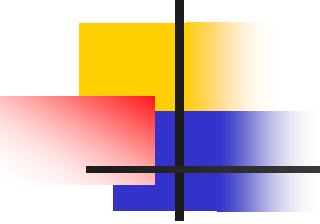

Multiple Choice Questions

➤ Which of the following actions is considered a violation of copyright?

- a. Purchasing a legal copy of a software program
- b. Creating a backup copy of a copyrighted movie you own
- **c. Distributing copyrighted music without permission**
- d. Using a copyrighted image for educational purposes

➤ What is the term for a work that is no longer protected by copyright and can be freely used by the public?

- a. Creative Commons work
- **c. Public domain work**
- b. Fair use work
- d. Copyrighted work
